WORK EXPERIENCE

CyberElysium Pvt Ltd (2022 - Present)

Experienced Associate Software Engineer specializing in Laravel, VueJs, and JavaScript. Advanced quickly at CyberElysium Pvt Ltd since 2022, optimizing app performance and enhancing user experiences. Committed to ongoing learning and collaboration.

Ideal Web Design Pvt Ltd (2021 - 2022)

Trainee Software Engineer at Ideal Web Design - Kandy (June 2021 - August 2022), specializing in Laravel. Developed expertise in dynamic web application creation through hands-on projects.

PROJECTS

YOO ERP (Laravel, Livewire, JQuery)

I built the YOO Brands ERP system, resulting in a visually appealing interface with features like inventory management and order tracking for a comprehensive solution.

IJVR Valuation (Laravel, VueJs, InertiaJs)

The IJVR Valuation System revolutionizes real estate assessment with seamless map integration, prioritizing data security while enhancing property valuations with its user-friendly interface.

Boutique Sri Lanka (Laravel, VueJs, InertiaJs)

Contributed to Boutique Sri Lanka, a Hotel and Tourism Management System. Delivered a secure, scalable, and userfriendly platform, showcasing innovation in the dynamic hospitality and tourism industry.

My Learners (Laravel, VueJs, InertiaJs)

Created "My Learners," a Driving Learners Management System for CyberElysium Pvt Ltd, showcasing technical expertise in designing a comprehensive solution for efficient driving education management.

Mary Janes Bakery (Laravel)

Worked at Ideal Web Design on the Mary Janes Bakery project, utilizing PHP Laravel. Developed a comprehensive solution for efficient management of a bakery's online presence.

Pet Direct Online (Laravel)

Worked at Ideal Web Design on the Pet Direct Online project, using PHP Laravel. Developed a comprehensive solution for efficient management of an online pet supply store.
